PURUS

PUM waterless waste for Basin/Bidet outlet

Waterless waste that prevents foul air return and acts as secondary air admittance valve.
Purus Universal Membrane - PUM 53030 fits 1¼" and 1½" wastes.

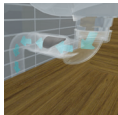

Saves space
The new PUM Basin saves space.

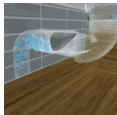

Stops bad odours
PUM prevents bad air from coming up through the system.

Excellent water flow capacity
PUM membrane allows for a good water flow capacity in the drainage system.

Secondary air ventilation
PUM also acts as an air admittance valve when there is a negative pressure in the drainage system.

Back flow stop
PUM works to a certain extent as a back flow stop.

Option
The new PUM is also available in chrome effect.
